Author Index

A

Abramow, M. *See* Cogan and Abramow.

Acheson, K. J. *See* Christin, Nacht, Vernet, Ravussin, Jéquier, and Acheson.

Adelberg, S. *See* Bitterman, Wewers, Rennard, Adelberg, and Crystal.

Adler, S., Baker, P. J., Johnson, R. J., Ochi, R. F., Pritzl, P., and Couser, W. G. Complement membrane attack complex stimulates production of reactive oxygen metabolites by cultured rat mesangial cells. 762

Agar, N. S., Sadrzadeh, S. M. H., Hallaway, P. E., and Eaton, J. W. Erythrocyte catalase. A somatic oxidant defense? 319

Aglietta, M. *See* Bussolino, Breviario, Tetta, Aglietta, Mantovani, and Dejana.

Ahlborg, G., Wahren, J., and Felig, P. Splanchnic and peripheral glucose and lactate metabolism during and after prolonged arm exercise. 690

Ahnen, D. J., Singleton, J. R., Hoops, T. C., and Kloppel, T. M. Post-translational processing of secretory component in the rat jejunum by a brush border metalloprotease. 1841

Akmal, M., Telfer, N., Ansari, A. N., and Massry, S. G. Correction. 331

Algeo, S. *See* Gay, Algeo, Lee, Olajos, Morkin, and Goldman.

Allen, R. H. *See* Stabler, Marcell, Podell, Allen, and Lindenbaum.

Alpert, A. R. *See* Wilson, Westall, Johnston, Lewis, Dower, and Alpert.

Alroy, J. *See* Libby, Alroy, and Pereira.

Alvarez, E. *See* García, Venturino, Alvarez, Fabiano de Bruno, Braun, Pivetta, and Basabe.

Amento, E. P. *See* Polla, Healy, Amento, and Krane.

Anderson, L. J. *See* Bogusky, Taylor, Anderson, Angelos, Lieberman, and Walsh.

Anderson, L. *See* Zucali, Dinarello, Oblon, Gross, Anderson, and Weiner.

Anderson, P. *See* Shurin, Anderson, Zollinger, and Rathbun.

Anderson, S., Rennke, H. G., and Brenner, B. M. Therapeutic advantage of converting enzyme inhibitors in arresting progressive renal disease associated with systemic hypertension in the rat. 1993

—, *See* Smith, Anderson, Ballermann, and Brenner.

—, *See* Zatz, Dunn, Meyer, Anderson, Rennke, and Brenner.

Andres, G. A. *See* Clayman, Michaud, Brentjens, Andres, Kefalides, and Neilson.

Angelos, K. L. *See* Bogusky, Taylor, Anderson, Angelos, Lieberman, and Walsh.

Ansari, A. N. *See* Akmal, Telfer, Ansari, and Massry.

Aoki, N. *See* Mimuro, Kimura, and Aoki.

Appel, M. C. *See* Rossini, Mordes, Greiner, Nakano, Appel, and Handler.

Arena, J. *See* Bakth, Arena, Lee, Torres, Haider, Patel, Lyons, and Regan.

Arenzana-Seisdedos, F., Barbey, S., Virelizier, J. L., Kornprobst, M., and Nezelof, C. Histiocytosis X. Purified ($T6^+$) cells from bone granuloma produce interleukin 1 and prostaglandin E_2 in culture. 326

Arner, P., Einarsson, K., Ewerth, S., and Livingston, J. Studies of the human liver insulin receptor in noninsulin-dependent diabetes mellitus. 1716

—, *See* Bolinder, Östman, Werner, and Arner.

Aronson, P. S. *See* Knickelbein, Aronson, and Dobbins.

Atluru, D. *See* Goodwin, Atluru, Sierakowski, and Lianos.

Aula, P. *See* Renlund, Kovanen, Raivio, Aula, Gahmberg, and Ehnholm.

Auron, P. E. *See* Dinarello, Cannon, Mier, Bernheim, LoPreste, Lynn, Love, Webb, Auron, Reuben, Rich, Wolff, and Putney.

Ayoub, E. M., Barrett, D. J., Maclaren, N. K., and Krischer, J. P. Association of Class II human histocompatibility leukocyte antigens with rheumatic fever. 2019

Azhar, S. *See* Reaven, Chen, Spicher, Hwang, Mondon, and Azhar.

B

Bache, R. J. *See* Homans, Sublett, Dai, and Bache.

Bagby, G. C., Jr. *See* Gowda, Koler, and Bagby.

Baggio, G., Manzato, E., Gabelli, C., Fellin, R., Martini, S., Enzi, G. B., Verlato, F., Baiocchi, M. R., Sprecher, D. L., Kashyap, M. L., Brewer, H. B., Jr., and Crepaldi, G. Apolipoprotein C-II deficiency syndrome. Clinical features, lipoprotein characterization, lipase activity, and correction of hypertriglyceridemia after apolipoprotein C-II administration in two affected patients. 520

Baiocchi, M. R. *See* Baggio, Manzato, Gabelli, Fellin, Martini, Enzi, Verlato, Baiocchi, Sprecher, Kashyap, Brewer, and Crepaldi.

Baker, L. *See* Heinecke, Baker, Rosen, and Chait.

Baker, P. J. *See* Adler, Baker, Johnson, Ochi, Pritzl, and Couser.

Bakth, S., Arena, J., Lee, W., Torres, R., Haider, B., Patel, B. C., Lyons, M. M., and Regan, T. J. Arrhythmia susceptibility and myocardial composition in diabetes. Influence of physical conditioning. 382

Ballermann, B. J. *See* Smith, Anderson, Ballermann, and Brenner.

Balsan, S., Garabédian, M., Larchet, M., Gorski, A.-M., Cournot, G., Tau, C., Bourdeau, A., Silve, C., and Ricour, C. Long-term nocturnal calcium infusions can cure rickets and promote normal mineralization in hereditary resistance to 1,25-dihydroxyvitamin D. 1661

Banchereau, J. *See* Roncarolo, Touraine, and Banchereau.

Baran, D. T., and Milne, M. L. 1,25 Dihydroxyvitamin D increases hepatocyte cytosolic calcium levels. A potential regulator of vitamin D–25-hydroxylase. 1622

Barbey, S. *See* Arenzana-Seisdedos, Barbey, Virelizier, Kornprobst, and Nezelof.

Barbieri, R. L., Gochberg, J., and Ryan, K. J. Nicotine, cotinine, and anabasine inhibit aromatase in human trophoblast in vitro. 1727

Barham, S. S. *See* LeSage, Kost, Barham, and LaRusso.

Barrett, D. J. *See* Ayoub, Barrett, Maclaren, and Krischer.

Barrieux, A. *See* Lorenzi, Montisano, Toledo, and Barrieux.

Basabe, J. C. *See* García, Venturino, Alvarez, Fabiano de Bruno, Braun, Pivetta, and Basabe.

Bass, D. A. *See* Gerard, McPhail, Marfat, Stimler-Gerard, Bass, and McCall.

Baudet, A. *See* Robinson, Ward, Goodyer, and Baudet.

Beardsworth, D. E. *See* Wierman, Beardsworth, Crawford, Crigler, Mansfield, Bode, Boepple, Kushner, and Crowley.

Beatty, P. G. *See* June, Ledbetter, Rabinovitch, Martin, Beatty, and Hansen.

Beaumont, C. *See* de Verneuil, Grandchamp, Romeo, Raich, Beaumont, Goossens, Nicolas, and Nordmann.

Bell, P. M. *See* Firth, Bell, Marsh, Hansen, and Rizza.

Benet, L. Z. *See* Smith, McDonagh, and Benet.

Bennett, S. E. *See* Pier and Bennett.

Bennicelli, C. *See* Petrilli, Rossi, Camoirano, Romano, Serra, Bennicelli, De Flora, and De Flora.

Berden, J. H. M. *See* Faaber, Rijke, van de Putte, Capel, and Berden.

Berg, M. *See* Boyd, Hill, Oberwetter, and Berg.

Berl, T. *See* Teitelbaum and Berl.

Bernard, P. *See* Tran Ba Huy, Bernard, and Schacht.

Bernheim, H. A. *See* Dinarello, Cannon, Mier, Bernheim, LoPreste, Lynn, Love, Webb, Auron, Reuben, Rich, Wolff, and Putney.

Bersot, T. P., Innerarity, T. L., Pitas, R. E., Rall, S. C., Jr., Weisgraber, K. H., and Mahley, R. W. Fat feeding in humans induces lipoproteins of density less than 1.006 that are enriched in apolipoprotein [a] and that cause lipid accumulation in macrophages. 622

Beutler, E., Gelbart, T., and Pegelow, C. Erythrocyte glutathione synthetase deficiency leads not only to glutathione but also to glutathione-S-transferase deficiency. 38

Bier, D. M. *See* Bougneres, Lemmel, Ferré, and Bier.

Bierer, B. E. *See* Bringhurst, Bierer, Godeau, Neyhard, Varner, and Segre.

Binder, H. J. *See* Foster, Budinger, Hayslett, and Binder.

Biolo, G. *See* Tessari, Nosadini, Trevisan, De Kreutzenberg, Inchiostro, Duner, Biolo, Marescotti, Tiengo, and Crepaldi.

Birmingham, D. J. *See* Waxman, Hebert, Cosio, Smead, VanAman, Taguiam, and Birmingham.

Bischof-Delaloye, A. *See* Delaloye, Bischof-Delaloye, Buchegger, von Fliedner, Grob, Volant, Pettavel, and Mach.

Bitterman, P. B., Wewers, M. D., Rennard, S. I., Adelberg, S., and Crystal, R. G. Modulation of alveolar macrophage–driven fibroblast proliferation by alternative macrophage mediators. 700

Blair, I. A. *See* Patrono, Ciabattoni, Pugliese, Pierucci, Blair, and FitzGerald.
Bockenstedt, P., Greenberg, J. M., and Handin, R. I. Structural basis of von Willebrand factor binding to platelet glycoprotein Ib and collagen. Effects of disulfide reduction and limited proteolysis of polymeric von Willebrand factor. 743
Bode, H. H. *See* Wierman, Beardsworth, Crawford, Crigler, Mansfield, Bode, Boepple, Kushner, and Crowley.
Boepple, P. A. *See* Wierman, Beardsworth, Crawford, Crigler, Mansfield, Bode, Boepple, Kushner, and Crowley.
Bogusky, R. T., Taylor, R. G., Anderson, L. J., Angelos, K. L., Lieberman, J. S., and Walsh, D. A. McArdle's disease heterozygotes. Metabolic adaptation assessed using ^{31}P-nuclear magnetic resonance. 1881
Bolinder, J., Östman, J., Werner, S., and Arner, P. Insulin action in human adipose tissue in acromegaly. 1201
Bontemps, F., Van den Berghe, G., and Hers, H. G. Pathways of adenine nucleotide catabolism in erythrocytes. 824
Bordwell, B. *See* Earnshaw, Bordwell, Marino, and Rothfield.
Borgeat, P. *See* Laviolette, Coulombe, Picard, Braquet, and Borgeat.
Bougneres, P. F., Lemmel, C., Ferré, P., and Bier, D. M. Ketone body transport in the human neonate and infant. 42
Bourdeau, A. *See* Balsan, Garabédian, Larchet, Gorski, Cournot, Tau, Bourdeau, Silve, and Ricour.
Boutton, T. W. *See* Irving, Thomas, Malphus, Marks, Wong, Boutton, and Klein.
Bowers, S. M. *See* Gharib, Bowers, Need, and Chin.
Bowie, E. J. W. *See* Nesheim, Nichols, Cole, Houston, Schenk, Mann, and Bowie.
Bowman, B. H. *See* Lum, Infante, Makker, Yang, and Bowman.
Boyd, A. E., III, Hill, R. S., Oberwetter, J. M., and Berg, M. Calcium dependency and free calcium concentrations during insulin secretion in a hamster beta cell line. 774
Bradford, H. *See* Schmaier, Bradford, Silver, Farber, Scott, Schutsky, and Colman.
Brantly, M. *See* Nukiwa, Brantly, Garver, Paul, Courtney, LeCocq, and Crystal.
Braquet, P. *See* Laviolette, Coulombe, Picard, Braquet, and Borgeat.
Brasitus, T. A., Dudeja, P. K., and Dahiya, R. Premalignant alterations in the lipid composition and fluidity of colonic brush border membranes of rats administered 1,2 dimethylhydrazine. 831
Braun, M. *See* García, Venturino, Alvarez, Fabiano de Bruno, Braun, Pivetta, and Basabe.
Bray, G. L., and Thompson, A. R. Partial Factor IX protein in a pedigree with hemophilia B due to a partial gene deletion. 1194
Brenner, B. M. *See* Anderson, Rennke, and Brenner.
—, *See* Harris, Brenner, and Seifter.
—, *See* Smith, Anderson, Ballermann, and Brenner.
—, *See* Zatz, Dunn, Meyer, Anderson, Rennke, and Brenner.
Brentjens, J. *See* Clayman, Michaud, Brentjens, Andres, Kefalides, and Neilson.
Breviario, F. *See* Bussolino, Breviario, Tetta, Aglietta, Mantovani, and Dejana.
Brewer, H. B., Jr. *See* Baggio, Manzato, Gabelli, Fellin, Martini, Enzi, Verlato, Baiocchi, Sprecher, Kashyap, Brewer, and Crepaldi.
—, *See* Gregg, Connor, Lin, and Brewer.
Breyer, M. D., Kokko, J. P., and Jacobson, H. R. Regulation of net bicarbonate transport in rabbit cortical collecting tubule by peritubular pH, carbon dioxide tension, and bicarbonate concentration. 1650
Bringhurst, F. R., Bierer, B. E., Godeau, F., Neyhard, N., Varner, V., and Segre, G. V. Humoral hypercalcemia of malignancy. Release of a prostaglandin-stimulating bone-resorbing factor in vitro by human transitional-cell carcinoma cells. 456
Broder, S. *See* Yarchoan, Guo, Reitz, Maluish, Mitsuya, and Broder.
Brown, R. C. *See* Morgan, Brown, Spurlock, Southgate, and Mir.
Browning, P. J. *See* Lynch, Zimmerman, Ling, and Browning.
Bruno, E. *See* Yang, Bruno, and Hoffman.
Bruns, G. *See* Kwan, Kunkel, Bruns, Wedgwood, Latt, and Rosen.
Brunton, J. L. *See* Murray, Mederski-Samoraj, Foster, Brunton, and Harford.
Buchegger, F. *See* Delaloye, Bischof-Delaloye, Buchegger, von Fliedner, Grob, Volant, Pettavel, and Mach.
Budinger, M. E. *See* Foster, Budinger, Hayslett, and Binder.
Burant, C. F., Treutelaar, M. K., and Buse, M. G. Diabetes-induced functional and structural changes in insulin receptors from rat skeletal muscle. 260
Burg, M. B. *See* Tomita, Pisano, Burg, and Knepper.
Burkhoff, D. *See* Lerman, Burkhoff, Yue, Franz, and Sagawa.
Burns, A. R. *See* Montaner, Tsang, Evans, Mullen, Burns, Walker, Wiggs, and Hogg.
Burrus, B. *See* Dayer, de Rochemonteix, Burrus, Demczuk, and Dinarello.
Buse, M. G. *See* Burant, Treutelaar, and Buse.
Bushinsky, D. A. *See* Worcester, Nakagawa, Bushinsky, and Coe.
Bussolino, F., Breviario, F., Tetta, C., Aglietta, M., Mantovani, A., and Dejana, E. Interleukin 1 stimulates platelet-activating factor production in cultured human endothelial cells. 2027

C

Camoirano, A. *See* Petrilli, Rossi, Camoirano, Romano, Serra, Bennicelli, De Flora, and De Flora.
Campese, V. *See* Nadler, McKay, Campese, Vrbanac, and Horton.
Cannistra, S. A., Herrmann, F., Davis, R., Nichols, K., and Griffin, J. D. Relationship between HLA-DR expression by normal myeloid progenitor cells and inhibition of colony growth by prostaglandin E. Implications for prostaglandin E resistance in chronic myeloid leukemia. 13
Cannon, J. G. *See* Dinarello, Cannon, Mier, Bernheim, LoPreste, Lynn, Love, Webb, Auron, Reuben, Rich, Wolff, and Putney.
Capaldo, B., Santoro, D., Riccardi, G., Perrotti, N., and Saccà, L. Direct evidence for a stimulatory effect of hyperglycemia per se on peripheral glucose disposal in type II diabetes. 1285
Capel, P. J. A. *See* Faaber, Rijke, van de Putte, Capel, and Berden.
Capitanio, A. M. *See* DiMinno, Coraggio, Cerbone, Capitanio, Manzo, Spina, Scarpato, Dattoli, Mattioli, and Mancini.
Carrell, R. W. *See* Scott, Carrell, Glaser, Kueppers, Lewis, and Colman.
Carvallo, D. *See* Schapira, Ramus, Jallat, Carvallo, and Courtney.
Casella, S. J. *See* Clemmons, Elgin, Han, Casella, D'Ercole, and Van Wyk.
Casey, T. T. *See* Gorevic, Casey, Stone, DiRaimondo, Prelli, and Frangione.
Caskey, C. T. *See* Wilson, Stout, Palella, Davidson, Kelley, and Caskey.
Cerbone, A. M. *See* DiMinno, Coraggio, Cerbone, Capitanio, Manzo, Spina, Scarpato, Dattoli, Mattioli, and Mancini.
Chait, A. *See* Heinecke, Baker, Rosen, and Chait.
Chan, S. J. *See* Nanjo, Sanke, Miyano, Okai, Sowa, Kondo, Nishimura, Iwo, Miyamura, Given, Chan, Tager, Steiner, and Rubenstein.
Chap, Z., Ishida, T., Chou, J., Michael, L., Hartley, C., Entman, M., and Field, J. B. Effects of alpha and beta adrenergic blockade on hepatic glucose balance before and after oral glucose. Role of insulin and glucagon. 1357
Chapuy, M. C. *See* Delmas, Demiaux, Malaval, Chapuy, Edouard, and Meunier.
Charron, D. *See* Durandy, Fischer, Charron, and Griscelli.
Chen, P.-S., Shibata, N., Dixon, E. G., Wolf, P. D., Danieley, N. D., Sweeney, M. B., Smith, W. M., and Ideker, R. E. Activation during ventricular defibrillation in open-chest dogs. Evidence of complete cessation and regeneration of ventricular fibrillation after unsuccessful shocks. 810
Chen, Y.-D. I. *See* Reaven, Chen, Spicher, Hwang, Mondon, and Azhar.
Cheng, C. *See* Lolait, Clements, Markwick, Cheng, McNally, Smith, and Funder.
Chin, W. W. *See* Gharib, Bowers, Need, and Chin.
Chou, J. *See* Chap, Ishida, Chou, Michael, Hartley, Entman, and Field.
Christin, L., Nacht, C.-A., Vernet, O., Ravussin, E., Jéquier, E., and Acheson, K. J. Insulin. Its role in the thermic effect of glucose. 1747
Chrousos, G. P. *See* Udelsman, Ramp, Gallucci, Gordon, Lipford, Norton, Loriaux, and Chrousos.
Chuntharapai, A. *See* Van Dyke, Stesin, Jones, Chuntharapai, and Seaman.

Contents

The Journal of Clinical Investigation
January 1986, Volume 77, Number 1

Perspectives

Trafficking of lysosomal enzymes in normal and disease states. *S. Kornfeld* 1

Regular Articles

Oral intake of phosphorus can determine the serum concentration of 1,25-dihydroxyvitamin D by determining its production rate in humans. *A. A. Portale, B. P. Halloran, M. M. Murphy, and R. C. Morris, Jr.* 7

Relationship between HLA-DR expression by normal myeloid progenitor cells and inhibition of colony growth by prostaglandin E. Implications for prostaglandin E resistance in chronic myeloid leukemia. *S. A. Cannistra, F. Herrmann, R. Davis, K. Nichols, and J. D. Griffin* 13

Pathogenesis of calcium-containing gallstones. Canine ductular bile, but not gallbladder bile, is supersaturated with calcium carbonate. *R. V. Rege and E. W. Moore* 21

Excessive binding of natural anti–alpha-galactosyl immunoglobin G to sickle erythrocytes may contribute to extravascular cell destruction. *U. Galili, M. R. Clark, and S. B. Shohet* 27

Stimulated cytokineplasts from human polymorphonuclear leukocytes mobilize calcium and polymerize actin. Cytoplasts made in cytochalasin B retain a defect in actin polymerization. *D. E. Dyett, S. E. Malawista, P. H. Naccache, and R. I. Sha'afi* 34

Erythrocyte glutathione synthetase deficiency leads not only to glutathione but also to glutathione-S-transferase deficiency. *E. Beutler, T. Gelbart, and C. Pegelow* 38

Ketone body transport in the human neonate and infant. *P. F. Bougneres, C. Lemmel, P. Ferré, and D. M. Bier* 42

Enterogastrone-like effect of peptide YY is vagally mediated in the dog. *T. N. Pappas, H. T. Debas, and I. L. Taylor* 49

Decreased leukotriene B_4 synthesis in smokers' alveolar macrophages in vitro. *M. Laviolette, R. Coulombe, S. Picard, P. Braquet, and P. Borgeat* 54

Role of protein kinases in stimulation of human polymorphonuclear leukocyte oxidative metabolism by various agonists. Differential effects of a novel protein kinase inhibitor. *C. Gerard, L. C. McPhail, A. Marfat, N. P. Stimler-Gerard, D. A. Bass, and C. E. McCall* 61

Persistence of regional left ventricular dysfunction after exercise-induced myocardial ischemia. *D. C. Homans, E. Sublett, X.-Z. Dai, and R. J. Bache* 66

Dependence of highly enriched human bone marrow progenitors on hemopoietic growth factors and their response to recombinant erythropoietin. *C. A. Sieff, S. G. Emerson, A. Mufson, T. G. Gesner, and D. G. Nathan* 74

Differential binding of immunoglobulin A and immunoglobulin G1 immune complexes to primate erythrocytes in vivo. Immunoglobulin A immune complexes bind less well to erythrocytes and are preferentially deposited in glomeruli. *F. J. Waxman, L. A. Hebert, F. G. Cosio, W. L. Smead, M. E. VanAman, J. M. Taguiam, and D. J. Birmingham* 82

Biliary excretion of iron from hepatocyte lysosomes in the rat. A major excretory pathway in experimental iron overload. *G. D. LeSage, L. J. Kost, S. S. Barham, and N. F. LaRusso* 90

Use of biosynthetic human C-peptide in the measurement of insulin secretion rates in normal volunteers and type I diabetic patients. *K. S. Polonsky, J. Licinio-Paixao, B. D. Given, W. Pugh, P. Rue, J. Galloway, T. Karrison, and B. Frank* 98

Human-human hybridoma autoantibodies with both anti-DNA and rheumatoid factor activities. *J. Rauch, H. Tannenbaum, K. Straaton, H. Massicotte, and J. Wild* 106

Intracellular pH regulation and proton transport by rabbit renal medullary collecting duct cells. Role of plasma membrane proton adenosine triphosphatase. *M. L. Zeidel, P. Silva, and J. L. Seifter* 113

Adrenarche and skeletal maturation during luteinizing hormone releasing hormone analogue supression of gonadarche. *M. E. Wierman, D. E. Beardsworth, J. D. Crawford, J. F. Crigler, Jr., M. J. Mansfield, H. H. Bode, P. A. Boepple, D. C. Kushner, and W. F. Crowley, Jr.* 121

A neuraminidase from *Trypanosoma cruzi* removes sialic acid from the surface of mammalian myocardial and endothelial cells. *P. Libby, J. Alroy, and M. E. A. Pereira* 127

Effects of vasopressin and bradykinin on anion transport by the rat cortical collecting duct. Evidence for an electroneutral sodium chloride transport pathway. *K. Tomita, J. J. Pisano, M. B. Burg, and M. A. Knepper* 136

Nephritogenicity of antibodies to proteoglycans of the glomerular basement membrane-I. *H. Makino, J. T. Gibbons, M. K. Reddy, and Y. S. Kanwar* 142

A myeloma paraprotein with specificity for platelet glycoprotein IIIa in a patient with a fatal bleeding disorder. *G. DiMinno, F. Coraggio, A. M. Cerbone, A. M. Capitanio, C. Manzo, M. Spina, P. Scarpato, G. M. R. Dattoli, P. L. Mattioli, and M. Mancini* 157

Thrombin induction of plasminogen activator–inhibitor in cultured human endothelial cells. *T. D. Gelehrter and R. Sznycer-Laszuk* 165

Oxalate transport by anion exchange across rabbit ileal brush border. *R. G. Knickelbein, P. S. Aronson, and J. W. Dobbins* 170

Exogenous growth hormone inhibits growth hormone-releasing factor–induced growth hormone secretion in normal men. *S. M. Rosenthal, J. A. Hulse, S. L. Kaplan, and M. M. Grumbach* 176

Abnormal parathyroid hormone stimulation of 25-hydroxyvitamin D–1α-hydroxylase activity in the hypophosphatemic mouse. Evidence for a generalized defect of vitamin D metabolism. *T. Nesbitt, M. K. Drezner, and B. Lobaugh* 181

A molecular survey of hypoxanthine-guanine phosphoribosyltransferase deficiency in man. *J. M. Wilson, J. T. Stout, T. D. Palella, B. L. Davidson, W. N. Kelley, and C. T. Caskey* 188

A human lung mast cell chymotrypsin-like enzyme. Identification and partial characterization. *B. U. Wintroub, C. E. Kaempfer, N. M. Schechter, and D. Proud* 196

15-Hydroxy-5,8,11,13-eicosatetraenoic acid inhibits human vascular cyclooxygenase. Potential role in diabetic vascular disease. *B. N. Y. Setty and M. J. Stuart* 202

Glucoregulation during exercise: hypoglycemia is prevented by redundant glucoregulatory systems, sympathochromaffin activation, and changes in islet hormone secretion. *D. R. Hoelzer, G. P. Dalsky, W. E. Clutter, S. D. Shah, J. O. Holloszy, and P. E. Cryer* 212

Chronic caffeine ingestion sensitizes the A_1 adenosine receptor-adenylate cyclase system in rat cerebral cortex. *R. M. Green and G. L. Stiles* 222

Ion transport in proximal colon of the rat. Sodium depletion stimulates neutral sodium chloride absorption. *E. S. Foster, M. E. Budinger, J. P. Hayslett, and H. J. Binder* 228

Evidence against the hypothesis that prostaglandins are the vasodepressor agents of pregnancy. Serial studies in chronically instrumented, conscious rats. *K. P. Conrad and M. C. Colpoys* 236

Modulation of keratinocyte proliferation in vitro by endogenous prostaglandin synthesis. *A. P. Pentland and P. Needleman* 246

Increased renal thromboxane production in murine lupus nephritis. *V. E. Kelley, S. Sneve, and S. Musinski* 252

Diabetes-induced functional and structural changes in insulin receptors from rat skeletal muscle. *C. F. Burant, M. K. Treutelaar, and M. G. Buse* 260

Regulation of C-myc expression during growth and differentiation of normal and leukemic human myeloid progenitor cells. *S. D. Gowda, R. D. Koler, and G. C. Bagby, Jr.* 271

Dietary fat selectively alters transport properties of rat jejunum. *A. B. R. Thomson, M. Keelan, M. T. Clandinin, and K. Walker* 279

In vitro studies of plasmid-mediated penicillinase from *Streptococcus faecalis* suggest a staphylococcal origin. *B. E. Murray, B. Mederski-Samoraj, S. K. Foster, J. L. Brunton, and P. Harford* 289

Implications for the role of cognate interactions in in vitro human B cell activation by *Staphylococcus aureus* Cowan I and pokeweed mitogen. *N. Suzuki, T. Sakane, Y. Ueda, Y. Murakawa, and T. Tsunematsu* 294

Detection of colorectal carcinoma by emission-computerized tomography after injection of ^{123}I-labeled Fab or $F(ab')_2$ fragments from monoclonal anti–carcinoembryonic antigen antibodies. *B. Delaloye, A. Bischof-Delaloye, F. Buchegger, V. von Fliedner, J.-P. Grob, J.-C. Volant, J. Pettavel, and J.-P. Mach* 301

Rapid Publications

No 1,25-dihydroxyvitamin D_3 receptors on osteoclasts of calcium-deficient chicken despite demonstrable receptors on circulating monocytes. *J. Merke, G. Klaus, U. Hügel, R. Waldherr, and E. Ritz* 312

Angiotensin II binding sites in individual segments of the rat nephron. *S. K. Mujais, S. Kauffman, and A. I. Katz* 315

Erythrocyte catalase. A somatic oxidant defense? *N. S. Agar, S. M. H. Sadrzadeh, P. E. Hallaway, and J. W. Eaton* 319

High glucose induces DNA damage in cultured human endothelial cells. *M. Lorenzi, D. F. Montisano, S. Toledo, and A. Barrieux* 322

Histiocytosis X. Purified ($T6^+$) cells from bone granuloma produce interleukin 1 and prostaglandin E_2 in culture. *F. Arenzana-Seisdedos, S. Barbey, J. L. Virelizier, M. Kornprobst, and C. Nezelof* 326

Perspectives

Control of heme metabolism with synthetic metalloporphyrins. *A. Kappas and G. S. Drummond* 335

Regular Articles

Distribution of cardiac myosin isozymes in human conduction system. Immunohistochemical study using monoclonal antibodies. *M. Kuro-o, H. Tsuchimochi, S. Ueda, F. Takaku, and Y. Yazaki* 340

Mechanism of chloride secretion induced by carbachol in a colonic epithelial cell line. *K. Dharmsathaphorn and S. J. Pandol* 348

Electron microscopic study of rheumatoid synovial vasculature. Intimate relationship between tall endothelium and lymphoid aggregation. *T. Iguchi and M. Ziff* 355

Identification of the thrombin receptor on human platelets by chemical crosslinking. *J. Takamatsu, M. K. Horne III, and H. R. Gralnick* 362

Adenine nucleotides and 5-hydroxytryptamine released by aggregating platelets inhibit adrenergic neurotransmission in canine coronary artery. *R. A. Cohen* 369

Identification of progastrin in gastrinomas, antrum, and duodenum by a novel radioimmunoassay. *S. Pauwels, H. Desmond, R. Dimaline, and G. J. Dockray* 376

Arrhythmia susceptibility and myocardial composition in diabetes. Influence of physical conditioning. *S. Bakth, J. Arena, W. Lee, R. Torres, B. Haider, B. C. Patel, M. M. Lyons, and T. J. Regan* 382

Human keratinocyte culture. Identification and staging of epidermal cell subpopulations. *L. Staiano-Coico, P. J. Higgins, Z. Darzynkiewicz, M. Kimmel, A. B. Gottlieb, I. Pagan-Charry, M. R. Madden, J. L. Finkelstein, and J. M. Hefton* 396

Isolation and study of an acquired inhibitor of human coagulation Factor V. *M. E. Nesheim, W. L. Nichols, T. L. Cole, J. G. Houston, R. B. Schenk, K. G. Mann, and E. J. W. Bowie* 405

Relationship between protein C antigen and anticoagulant activity during oral anticoagulation and in selected disease states. *S. Vigano D'Angelo, P. C. Comp, C. T. Esmon, and A. D'Angelo* 416

Three human chromosomal autoantigens are recognized by sera from patients with anti-centromere antibodies. *W. Earnshaw, B. Bordwell, C. Marino, and N. Rothfield* . . . 426

Molecular analysis of uroporphyrinogen decarboxylase deficiency in a family with two cases of hepatoerythropoietic porphyria. *H. de Verneuil, B. Grandchamp, P. H. Romeo, N. Raich, C. Beaumont, M. Goossens, H. Nicolas, and Y. Nordmann* 431

Interactions of bombesin and substance P at the feline lower esophageal sphincter. *J. C. Reynolds, M. R. Dukehart, A. Ouyang, and S. Cohen* 436

Beta adrenergic receptor blockade of feline myocardium. Cardiac mechanics, energetics, and beta adrenoceptor regulation. *G. Cooper IV, R. L. Kent, P. McGonigle, and A. M. Watanabe* 441

Humoral hypercalcemia of malignancy. Release of a prostaglandin-stimulating bone-resorbing factor in vitro by human transitional-cell carcinoma cells. *F. R. Bringhurst, B. E. Bierer, F. Godeau, N. Neyhard, V. Varner, and G. V. Segre* 456

Effect of acute hypercapnia on renal and proximal tubular tc^{+1} carbon dioxide reabsorption in the acetazolamide-treated rat. *J. Winaver, K. A. Walker, and R. T. Kunau, Jr.* 465

Axo-glial dysjunction. A novel structural lesion that accounts for poorly reversible slowing of nerve conduction in the spontaneously diabetic Bio-Breeding rat. *A. A. F. Sima, S. A. Lattimer, S. Yagihashi, and D. A. Greene* . . . 474

Dexamethasone modulates lipoprotein metabolism in cultured human monocyte-derived macrophages. Stimulation of scavenger receptor activity. *L. J. Hirsch and T. Mazzone* 485

Structural analysis and immunogenicity of *Pseudomonas aeruginosa* immunotype 2 high molecular weight polysaccharide. *G. B. Pier and S. E. Bennett* 491

Coronary vascular occlusion mediated via thromboxane A_2-prostaglandin endoperoxide receptor activation in vivo. *D. J. Fitzgerald, J. Doran, E. Jackson, and G. A. FitzGerald* 496

Basal phosphatidylinositol turnover controls aortic Na^+/K^+ ATPase activity. *D. A. Simmons, E. F. O. Kern, A. I. Winegrad, and D. B. Martin* 503

Diabetes due to secretion of a structurally abnormal insulin (Insulin Wakayama). Clinical and functional characteristics of [Leu^{A3}] insulin. *K. Nanjo, T. Sanke, M. Miyano, K. Okai, R. Sowa, M. Kondo, S. Nishimura, K. Iwo, K. Miyamura, B. D. Given, S. J. Chan, H. S. Tager, D. F. Steiner, and A. H. Rubenstein* 514

Apolipoprotein C-II deficiency syndrome. Clinical features, lipoprotein characterization, lipase activity, and correction of hypertriglyceridemia after apolipoprotein C-II administration in two affected patients. *G. Baggio, E. Manzato, C. Gabelli, R. Fellin, S. Martini, G. B. Enzi, F. Verlato, M. R. Baiocchi, D. L. Sprecher, M. L. Kashyap, H. B. Brewer, Jr., and G. Crepaldi* 520

Evaluation of "at risk" alpha 1–antitrypsin genotype SZ with synthetic oligonucleotide gene probes. *T. Nukiwa, M. Brantly, R. Garver, L. Paul, M. Courtney, J.-P. LeCocq, and R. G. Crystal* 528

Inhibitin: a specific inhibitor of sodium/sodium exchange in erythrocytes. *K. Morgan, R. C. Brown, G. Spurlock, K. Southgate, and M. A. Mir* 538

Quantitation of *cis*-diamminedichloroplatinum II (cisplatin)-DNA-intrastrand adducts in testicular and ovarian cancer patients receiving cisplatin chemotherapy. *E. Reed, S. H. Yuspa, L. A. Zwelling, R. F. Ozols, and M. C. Poirier* 545

Effect of protein on sympathetic nervous system activity in the rat. Evidence for nutrient-specific responses. *L. N. Kaufman, J. B. Young, and L. Landsberg* 551

In vivo interaction of synthetic acylated apopeptides with high density lipoproteins in rat. *G. Ponsin, J. T. Sparrow, A. M. Gotto, Jr., and H. J. Pownall* 559

Studies on the defect underlying the lysosomal storage of sialic acid in Salla disease. Lysosomal accumulation of sialic acid formed from *N*-acetyl-mannosamine or derived from low density lipoprotein in cultured mutant fibroblasts. *M. Renlund, P. T. Kovanen, K. O. Raivio, P. Aula, C. G. Gahmberg, and C. Ehnholm* 568

Inverse relationship of leucine flux and oxidation to free fatty acid availability in vivo. *P. Tessari, S. L. Nissen, J. M. Miles, and M. W. Haymond* 575

Regulation of rat luteinizing hormone subunit messenger ribonucleic acids by gonadal steroid hormones. *S. D. Gharib, S. M. Bowers, L. R. Need, and W. W. Chin* 582

Estimated rate of thromboxane secretion into the circulation of normal humans. *C. Patrono, G. Ciabattoni, F. Pugliese, A. Pierucci, I. A. Blair, and G. A. FitzGerald* 590

A variant primary structure of apolipoprotein C-II in individuals of African descent. *H.-J. Menzel, J. P. Kane, M. J. Malloy, and R. J. Havel* 595

Modulation of insulinlike growth factor I binding to human fibroblast monolayer cultures by insulinlike growth factor carrier proteins released to the incubation media. *M. A. De Vroede, L. Y.-H. Tseng, P. G. Katsoyannis, S. P. Nissley, and M. M. Rechler* 602

Metabolic acidosis stimulates protein degradation in rat muscle by a glucocorticoid-dependent mechanism. *R. C. May, R. A. Kelly, and W. E. Mitch* 614

Fat feeding in humans induces lipoproteins of density less than 1.006 that are enriched in apolipoprotein [a] and that cause lipid accumulation in macrophages. *T. P. Bersot, T. L. Innerarity, R. E. Pitas, S. C. Rall, Jr., K. H. Weisgraber, and R. W. Mahley* 622

Alpha-1-antitrypsin–Pittsburgh. A potent inhibitor of human plasma Factor XIa, kallikrein, and Factor XII_f. *C. F. Scott, R. W. Carrell, C. B. Glaser, F. Kueppers, J. H. Lewis, and R. W. Colman* 631

Rapid Publications

Recombinant α_1-antitrypsin Pittsburgh ($Met^{358} \rightarrow Arg$) is a potent inhibitor of plasma kallikrein and activated Factor XII fragment. *M. Schapira, M.-A. Ramus, S. Jallat, D. Carvallo, and M. Courtney* 635

Effect of theophylline on membrane potential and contractile force in hamster diaphragm muscle in vitro. *S. Esau* 638

Probucol inhibits oxidative modification of low density lipoprotein. *S. Parthasarathy, S. G. Young, J. L. Witztum, R. C. Pittman, and D. Steinberg* 641

Human recombinant interleukin 1 stimulates collagenase and prostaglandin E_2 production by human synovial cells. *J.-M. Dayer, B. de Rochemonteix, B. Burrus, S. Demczuk, and C. A. Dinarello* 645

Mapping of the X-linked agammaglobulinemia locus by use of restriction fragment-length polymorphism. *S.-P. Kwan, L. Kunkel, G. Bruns, R. J. Wedgwood, S. Latt, and F. S. Rosen* 649

Contents

The Journal of Clinical Investigation
March 1986, Volume 77, Number 3

Perspectives

Receptor-mediated endocytosis. *P. Stahl and A. L. Schwartz* 657

Regular Articles

Metabolic basis of hyperapobetalipoproteinemia. Turnover of apolipoprotein B in low density lipoprotein and its precursors and subfractions compared with normal and familial hypercholesterolemia. *B. Teng, A. D. Sniderman, A. K. Soutar, and G. R. Thompson* 663

Cooperation between major histocompatibility complex mismatched mononuclear cells from a human chimera in the production of antigen-specific antibody. *M. G. Roncarolo, J.-L. Touraine, and J. Banchereau* 673

Two distinct receptors account for recognition of maleyl-albumin in human monocytes during differentiation in vitro. *M. E. Haberland, R. R. Rasmussen, C. L. Olch, and A. M. Fogelman* 681

Splanchnic and peripheral glucose and lactate metabolism during and after prolonged arm exercise. *G. Ahlborg, J. Wahren, and P. Felig* 690

Modulation of alveolar macrophage–driven fibroblast proliferation by alternative macrophage mediators. *P. B. Bitterman, M. D. Wewers, S. I. Rennard, S. Adelberg, and R. G. Crystal* 709

Load dependence of proximal tubular bicarbonate reabsorption in chronic metabolic alkalosis in the rat. *D. A. Maddox and F. J. Gennari* 709

The source of the circulating aggregate of insulin in type I diabetic patients is therapeutic insulin. *M. Maislos, P. M. Mead, D. H. Gaynor, and D. C. Robbins* 717

Sodium–hydrogen exchange and glucose transport in renal microvillus membrane vesicles from rats with diabetes mellitus. *R. C. Harris, B. M. Brenner, and J. L. Seifter* 724

Blood levels and renal effects of atrial natriuretic peptide in normal man. *P. Weidmann, L. Hasler, M. P. Gnädinger, R. E. Lang, D. E. Uehlinger, S. Shaw, W. Rascher, and F. C. Reubi* 734

Structural basis of von Willebrand factor binding to platelet glycoprotein Ib and collagen. Effects of disulfide reduction and limited proteolysis of polymeric von Willebrand factor. *P. Bockenstedt, J. M. Greenberg, and R. I. Handin* 743

Exposure of fibrinogen receptors in human platelets by surface proteolysis with elastase. *E. Kornecki, Y. H. Ehrlich, D. D. De Mars, and R. H. Lenox* 750

Superoxide-mediated modification of low density lipoprotein by arterial smooth muscle cells. *J. W. Heinecke, L. Baker, H. Rosen, and A. Chait* 757

Complement membrane attack complex stimulates production of reactive oxygen metabolites by cultured rat mesangial cells. *S. Adler, P. J. Baker, R. J. Johnson, R. F. Ochi, P. Pritzl, and W. G. Couser* 762

Fatty acyl chain composition in the determination of renal membrane order. *M. K. Hise, W. W. Mantulin, and E. J. Weinman* 768

Calcium dependency and free calcium concentrations during insulin secretion in a hamster beta cell line. *A. E. Boyd III, R. S. Hill, J. M. Oberwetter, and M. Berg* 774

Proton secretion by the sodium/hydrogen ion antiporter in the human neutrophil. *J. Wright, J. H. Schwartz, R. Olson, J. M. Kosowsky, and A. I. Tauber* 782

Deficiency of vitamin E in the alveolar fluid of cigarette smokers. Influence on alveolar macrophage cytotoxicity. *E. R. Pacht, H. Kaseki, J. R. Mohammed, D. G. Cornwell, and W. B. Davis* 789

Glomerular injury in uninephrectomized spontaneously hypertensive rats. A consequence of glomerular capillary hypertension. *L. D. Dworkin and H. D. Feiner* 797

Activation during ventricular defibrillation in open-chest dogs. Evidence of complete cessation and regeneration of ventricular fibrillation after unsuccessful shocks. *P.-S. Chen, N. Shibata, E. G. Dixon, P. D. Wolf, N. D. Danieley, M. B. Sweeney, W. M. Smith, and R. E. Ideker* 810

Pathways of adenine nucleotide catabolism in erythrocytes. *F. Bontemps, G. Van den Berghe, and H. G. Hers* 824

Premalignant alterations in the lipid composition and fluidity of colonic brush border membranes of rats administered 1,2 dimethylhydrazine. *T. A. Brasitus, P. K. Dudeja, and R. Dahiya* 831

Transferrin synthesis by inducer T lymphocytes. *J. B. Lum, A. J. Infante, D. M. Makker, F. Yang, and B. H. Bowman* 841

Role of reactive oxygen in bile salt stimulation of colonic epithelial proliferation. *P. A. Craven, J. Pfanstiel, and F. R. DeRubertis* 850

Decreased production of interferon-gamma by human neonatal cells. Intrinsic and regulatory deficiencies. *C. B. Wilson, J. Westall, L. Johnston, D. B. Lewis, S. K. Dower, and A. R. Alpert* 860

Nature of the glomerular capillary injury in human membranous glomerulopathy. *O. Shemesh, J. C. Ross, W. M. Deen, G. W. Grant, and B. D. Myers* 868

Effect of common agonists on cytoplasmic ionized calcium concentration in platelets. Measurement with 2-methyl-6-methoxy 8-nitroquinoline (Quin2) and aequorin. *J. A. Ware, P. C. Johnson, M. Smith, and E. W. Salzman* . . . 878

Abnormal antithrombin III with defective serine protease binding (antithrombin III "Denver"). *J. E. Sambrano, L. J. Jacobson, E. B. Reeve, M. J. Manco-Johnson, and W. E. Hathaway* 887

Declining sensitivity to interleukin 3 of murine multipotential hemopoietic progenitors during their development. Application to a culture system that favors blast cell colony formation. *K. Koike, J. N. Ihle, and M. Ogawa* 894

Role of changes in insulin and glucagon in glucose homeostasis in exercise. *R. R. Wolfe, E. R. Nadel, J. H. F. Shaw, L. A. Stephenson, and M. H. Wolfe* 900

Chronic hyperglycemia is associated with impaired glucose influence on insulin secretion. A study in normal rats using chronic in vivo glucose infusions. *J. L. Leahy, H. E. Cooper, D. A. Deal, and G. C. Weir* 908

Spontaneous diabetes mellitus in the Bio-Breeding/Worcester rat. Evidence in vitro for natural killer cell lysis of islet cells. *P. MacKay, J. Jacobson, and A. Rabinovitch* 916

Exudation primes human and guinea pig neutrophils for subsequent responsiveness to the chemotactic peptide *N*-formylmethionylleucylphenylalanine and increases complement component C3bi receptor expression. *W. Zimmerli, B. Seligmann, and J. I. Gallin* 925

Irreversible binding of zomepirac to plasma protein in vitro and in vivo. *P. C. Smith, A. F. McDonagh, and L. Z. Benet* 934

Defective expression of T cell–associated glycoprotein in severe combined immunodeficiency. *L. K. L. Jung, S. M. Fu, T. Hara, N. Kapoor, and R. A. Good* 940

Subunit composition of plasma von Willebrand factor. Cleavage is present in normal individuals, increased in IIA and IIB von Willebrand disease, but minimal in variants with aberrant structure of individual oligomers (types IIC, IID, and IIE). *T. S. Zimmerman, J. A. Dent, Z. M. Ruggeri, and L. H. Nannini* 947

Potentiation of human immunoglobulin E synthesis by plasma immunoglobulin E binding factors from patients with the hyperimmunoglobulin E syndrome. *D. Y. M. Leung, R. Frankel, N. Wood, and R. S. Geha* 952

Virus-induced alterations in cyclic adenosine monophosphate generation in hamster islets of Langerhans. *E. J. Rayfield and K. J. Kelly* 958

Palmitate uptake by hepatocyte monolayers. Effect of albumin binding. *A. B. Fleischer, W. O. Shurmantine, B. A. Luxon, and E. L. Forker* 964

Sn-protoporphyrin inhibition of fetal and neonatal brain heme oxygenase. Transplacental passage of the metalloporphyrin and prenatal suppression of hyperbilirubinemia in the newborn animal. *G. S. Drummond and A. Kappas* 971

In vivo administration of lymphocyte-specific monoclonal antibodies in nonhuman primates. In vivo stability of disulfide-linked immunotoxin conjugates. *N. L. Letvin, V. S. Goldmacher, J. Ritz, J. M. Yetz, S. F. Schlossman, and J. M. Lambert* 977

Serum bone gamma carboxyglutamic acid–containing protein in primary hyperparathyroidism and in malignant hypercalcemia. Comparison with bone histomorphometry. *P. D. Delmas, B. Demiaux, L. Malaval, M. C. Chapuy, C. Edouard, and P. J. Meunier* 985

Regulation of gastric emptying in humans by cholecystokinin. *R. A. Liddle, E. T. Morita, C. K. Conrad, and J. A. Williams* 992

Insulin receptor of human cerebral gliomas. Structure and function. *G. Grunberger, W. L. Lowe, Jr., A. McElduff, and R. P. Glick* 997

Release of α_2-plasmin inhibitor from plasma fibrin clots by activated coagulation Factor XIII. Its effect on fibrinolysis. *J. Mimuro, S. Kimura, and N. Aoki* 1006

Effects of fibrinogen derivatives upon the inflammatory response. Studies with human fibrinopeptide B. *R. M. Senior, W. F. Skogen, G. L. Griffin, and G. D. Wilner* 1014

In vivo inflammatory activity of epidermal cell–derived thymocyte activating factor and recombinant interleukin 1 in the mouse. *R. D. Granstein, R. Margolis, S. B. Mizel, and D. N. Sauder* 1020

Rapid Publications

Manipulation of rat brain fatty acid composition alters volatile anesthetic potency. *A. S. Evers, W. J. Elliott, J. B. Lefkowith, and P. Needleman* 1028

Retrograde perfusion as a model for testing the relative effects of glucose versus insulin on the A cell. *J. I. Stagner and E. Samols* 1034

Genes encoding pancreatic polypeptide and neuropeptide Y are on human chromosomes 17 and 7. *T. Takeuchi, D. L. Gumucio, T. Yamada, M. H. Meisler, C. D. Minth, J. E. Dixon, R. E. Eddy, and T. B. Shows* 1038

Shared T cell recognition sites on human histocompatibility leukocyte antigen class II molecules of patients with seropositive rheumatoid arthritis. *J. Goronzy, C. M. Weyand, and C. G. Fathman* 1042

Defective postbinding lysis underlies the impaired natural killer activity in Factor VIII–treated, human T lymphotropic virus type III seropositive hemophiliacs. *M. Katzman and M. M. Lederman* 1057

Stimulation of gonadal steroid synthesis by chronic excess of adrenocorticotropin in patients with adrenocortical insufficiency. *H. Vierhapper, P. Nowotny, and W. Waldhäusl* 1063

Plasma cholesterol metabolism in end-stage renal disease. Difference between treatment by hemodialysis or peritoneal dialysis. *H. Dieplinger, P. Y. Schoenfeld, and C. J. Fielding* 1071

Morphologic alterations of the blood-brain barrier with experimental meningitis in the rat. Temporal sequence and role of encapsulation. *V. J. Quagliarello, W. J. Long, and W. M. Scheld* 1084

Complement-induced glomerular epithelial cell injury. Role of the membrane attack complex in rat membranous nephropathy. *A. V. Cybulsky, H. G. Rennke, I. D. Feintzeig, and D. J. Salant* 1096

Metabolism of very low density lipoproteins after cessation of cholesterol feeding in rabbits. A factor potentially contributing to the slow regression of atheromatous plaques. *A. Daugherty, G. Schonfeld, B. E. Sobel, and L. G. Lange* 1108

Prognostic role of antibody reactivity to melanoma. *D. R. Vlock, R. DerSimonian, and J. M. Kirkwood* 1116

Metabolic clearance of biologically active luteinizing hormone in man. *J. D. Veldhuis, F. Fraioli, A. D. Rogol, and M. L. Dufau* 1122

Ribose metabolism and nucleic acid synthesis in normal and glucose-6-phosphate dehydrogenase–deficient human erythrocytes infected with *Plasmodium falciparum*. *E. F. Roth, Jr., R. M. Ruprecht, S. Schulman, J. Vanderberg, and J. A. Olson* 1129

Vasopressin reduces cardiac function and augments cardiopulmonary baroreflex resistance increases in man. *T. J. Ebert, A. W. Cowley, Jr., and M. Skelton* 1136

Isolation of the target antigen of human anti-tubular basement membrane antibody–associated interstitial nephritis. *M. D. Clayman, L. Michaud, J. Brentjens, G. A. Andres, N. A. Kefalides, and E. G. Neilson* 1143

Deficiency of 3-methylglutaconyl–coenzyme A hydratase in two siblings with 3-methylglutaconic aciduria. *K. Narisawa, K. M. Gibson, L. Sweetman, W. L. Nyhan, M. Duran, and S. K. Wadman* 1148

Enhancement of insulin action after oral glucose ingestion. *W. J. Kingston, J. N. Livingston, and R. T. Moxley III* 1153

Mechanisms of enhanced cholesteryl ester transfer from high density lipoproteins to apolipoprotein B–containing lipoproteins during alimentary lipemia. *A. Tall, D. Sammett, and E. Granot* 1163

Recombinant interleukin 2 and gamma-interferon act synergistically on distinct steps of in vitro terminal human B cell maturation. *Lê thi Bich-Thuy and A. S. Fauci* . . . 1173

Laminin promotes rabbit neutrophil motility and attachment. *V. P. Terranova, R. DiFlorio, E. S. Hujanen, R. M. Lyall, L. A. Liotta, U. Thorgeirsson, G. P. Siegal, and E. Schiffmann* 1180

Experimental induction of isolated lower esophageal sphincter relaxation in anesthetized opossums. *W. G. Paterson, S. Rattan, and R. K. Goyal* 1187

Partial Factor IX protein in a pedigree with hemophilia B due to a partial gene deletion. *G. L. Bray and A. R. Thompson* 1194

Insulin action in human adipose tissue in acromegaly. *J. Bolinder, J. Östman, S. Werner, and P. Arner* 1201

A lymphokine regulates expression of alpha-1-proteinase inhibitor in human monocytes and macrophages. *S. Takemura, T. H. Rossing, and D. H. Perlmutter* 1207

Interrelationships among thyroxine, growth hormone, and the sympathetic nervous system in the regulation of 5'-iodothyronine deiodinase in rat brown adipose tissue. *J. E. Silva and P. R. Larsen* 1214

Distinct patterns of transmembrane calcium flux and intracellular calcium mobilization after differentiation antigen cluster 2 (E rosette receptor) or 3 (T3) stimulation of human lymphocytes. *C. H. June, J. A. Ledbetter, P. S. Rabinovitch, P. J. Martin, P. G. Beatty, and J. A. Hansen* 1224

Neutrophil-mediated injury to endothelial cells. Enhancement by endotoxin and essential role of neutrophil elastase. *L. A. Smedly, M. G. Tonnesen, R. A. Sandhaus, C. Haslett, L. A. Guthrie, R. B. Johnston, Jr., P. M. Henson, and G. S. Worthen* 1233

Mechanism of action of glucocorticosteroids. Inhibition of T cell proliferation and interleukin 2 production by hydrocortisone is reversed by leukotriene B_4. *J. S. Goodwin, D. Atluru, S. Sierakowski, and E. A. Lianos* 1244

Development of anti–human colonic mucin monoclonal antibodies. Characterization of multiple colonic mucin species. *D. K. Podolsky, D. A. Fournier, and K. E. Lynch* 1251

Human colonic goblet cells. Demonstration of distinct subpopulations defined by mucin-specific monoclonal antibodies. *D. K. Podolsky, D. A. Fournier, and K. E. Lynch* 1263

von Willebrand factor interaction with the glycoprotein IIb/IIIa complex. Its role in platelet function as demonstrated in patients with congenital afibrinogenemia. *L. De Marco, A. Girolami, T. S. Zimmerman, and Z. M. Ruggeri* 1272

Evidence that prostacyclin modulates the vascular actions of calcium in man. *J. L. Nadler, M. McKay, V. Campese, J. Vrbanac, and R. Horton* 1278

Direct evidence for a stimulatory effect of hyperglycemia per se on peripheral glucose disposal in type II diabetes. *B. Capaldo, D. Santoro, G. Riccardi, N. Perrotti, and L. Saccà* 1285

Sodium transport by rat cortical collecting tubule. Effects of vasopressin and desoxycorticosterone. *M. C. Reif, S. L. Troutman, and J. A. Schafer* 1291

Human complement protein D catabolism by the rat kidney. *P. W. Sanders, J. E. Volanakis, S. G. Rostand, and J. H. Galla* 1299

Interaction of histidine-rich glycoprotein with fibrinogen and fibrin. *L. L. K. Leung* 1305

Oxidant injury of cells. DNA strand-breaks activate polyadenosine diphosphate-ribose polymerase and lead to depletion of nicotinamide adenine dinucleotide. *I. U. Schraufstatter, D. B. Hinshaw, P. A. Hyslop, R. G. Spragg, and C. G. Cochrane* 1312

Lysine and protein metabolism in young women. Subdivision based on the novel use of multiple stable isotopic labels. *C. S. Irving, M. R. Thomas, E. W. Malphus, L. Marks, W. W. Wong, T. W. Boutton, and P. D. Klein* 1321

1,25-Dihydroxyvitamin D_3 maintains adherence of human monocytes and protects them from thermal injury. *B. S. Polla, A. M. Healy, E. P. Amento, and S. M. Krane* . . . 1332

Pathophysiology of hemolysis in infections with *Hemophilus influenzae* type b. *S. B. Shurin, P. Anderson, J. Zollinger, and R. K. Rathbun* 1340

Relationship of superoxide production to cytoplasmic free calcium in human monocytes. *S. P. Scully, G. B. Segel, and M. A. Lichtman* 1349

Effects of alpha and beta adrenergic blockade on hepatic glucose balance before and after oral glucose. Role of insulin and glucagon. *Z. Chap, T. Ishida, J. Chou, L. Michael, C. Hartley, M. Entman, and J. B. Field* 1357

Endothelial cell injury due to copper-catalyzed hydrogen peroxide generation from homocysteine. *G. Starkebaum and J. M. Harlan* 1370

Adaptation during surgical stress. A reevaluation of the role of glucocorticoids. *R. Udelsman, J. Ramp, W. T. Gallucci, A. Gordon, E. Lipford, J. A. Norton, D. L. Loriaux, and G. P. Chrousos* 1377

Rapid Publications

Selective elimination of anti-DNA antibody-producing cells by antiidiotypic antibody conjugated with neocarzinostatin. *T. Sasaki, T. Muryoi, O. Takai, E. Tamate, Y. Ono, Y. Koide, N. Ishida, and K. Yoshinaga* 1382

Cocaine increases natural killer cell activity. *C. Van Dyke, A. Stesin, R. Jones, A. Chuntharapai, and W. Seaman* 1387

Identification of 3-methylglutarylcarnitine. A new diagnostic metabolite of 3-hydroxy-3-methylglutaryl-coenzyme A lyase deficiency. *C. R. Roe, D. S. Millington, and D. A. Maltby* 1391

Role of atrial natriuretic peptide in adaptation of sodium excretion with reduced renal mass. *S. Smith, S. Anderson, B. J. Ballermann, and B. M. Brenner* 1395

Spleen cell transfusion in the Bio-Breeding/Worcester rat. Prevention of diabetes, major histocompatibility complex restriction, and long-term persistence of transfused cells. *A. A. Rossini, J. P. Mordes, D. L. Greiner, K. Nakano, M. C. Appel, and E. S. Handler* 1399

Glutathione peroxidase protein. Absence in selenium deficiency states and correlation with enzymatic activity. *K. Takahashi, P. E. Newburger, and H. J. Cohen* 1402

Cyclosporin A reverses vincristine and daunorubicin resistance in acute lymphatic leukemia in vitro. *L. M. Slater, P. Sweet, M. Stupecky, and S. Gupta* 1405

Perspectives

Biology of the human histocompatibility leukocyte antigen (HLA) system and a hypothesis regarding the generation of autoimmune diseases. *J. L. Strominger* 1411

Regular Articles

Plasma catecholamine modulation of alpha$_2$ adrenoreceptor agonist affinity and sensitivity in normotensive and hypertensive human platelets. *A. S. Hollister, J. Onrot, S. Lonce, J. H. J. Nadeau, and D. Robertson* 1416

Respiratory chain defects in the mitochondria of cultured skin fibroblasts from three patients with lacticacidemia. *B. H. Robinson, J. Ward, P. Goodyer, and A. Baudet* 1422

Immunoglobulin M antibodies present in the acute phase of Kawasaki syndrome lyse cultured vascular endothelial cells stimulated by gamma interferon. *D. Y. M. Leung, T. Collins, L. A. Lapierre, R. S. Geha, and J. S. Pober* . . . 1428

Enkephalins increase cyclic adenosine monophosphate content, calcium uptake, and contractile state in cultured chick embryo heart cells. *S. Laurent, J. D. Marsh, and T. W. Smith* 1436

Sodium and water balance in chronic congestive heart failure. *R. J. Cody, A. B. Covit, G. L. Schaer, J. H. Laragh, J. E. Sealey, and J. Feldschuh* 1441

Insulin secretion stimulated by allogeneic lymphocytes in an inbred strain of mice. *J. B. García, M. C. Venturino, E. Alvarez, L. Fabiano de Bruno, M. Braun, O. H. Pivetta, and J. C. Basabe* 1453

Stimulation of cholesteryl ester synthesis in mouse peritoneal macrophages by cholesterol-rich very low density lipoproteins from the Watanabe heritable hyperlipidemic rabbit, an animal model of familial hypercholesterolemia. *T. Kita, M. Yokode, Y. Watanabe, S. Narumiya, and C. Kawai* 1460

Alterations in cytotoxic and helper T cell function after infection of T cell clones with human T cell leukemia virus, type I. *R. Yarchoan, H.-G. Guo, M. Reitz, Jr., A. Maluish, H. Mitsuya, and S. Broder* 1466

Kinetic constants for receptor-dependent and receptor-independent low density lipoprotein transport in the tissues of the rat and hamster. *D. K. Spady, J. B. Meddings, and J. M. Dietschy* 1474

Protein-bound homocyst(e)ine. A possible risk factor for coronary artery disease. *S.-S. Kang, P. W. K. Wong, H. Y. Cook, M. Norusis, and J. V. Messer* 1482

Rates of bone loss in the appendicular and axial skeletons of women. Evidence of substantial vertebral bone loss before menopause. *B. L. Riggs, H. W. Wahner, L. J. Melton III, L. S. Richelson, H. L. Judd, and K. P. Offord* 1487

Kinetics of gentamicin uptake and release in the rat. Comparison of inner ear tissues and fluids with other organs. *P. Tran Ba Huy, P. Bernard, and J. Schacht* 1492

Differential effect of cyclosporin A on activation signaling in human T cell lines. *B. Manger, K. J. Hardy, A. Weiss, and J. D. Stobo* 1501

Inhibition by lithium of the hydroosmotic action of vasopressin in the isolated perfused cortical collecting tubule of the rabbit. *E. Cogan and M. Abramow* 1507

Acute alveolar hypoxia increases bronchopulmonary shunt flow in the dog. *R. L. Warren and W. J. Powell, Jr.* . . . 1515

Postprandial hyperglycemia in patients with noninsulin-dependent diabetes mellitus. Role of hepatic and extrahepatic tissues. *R. G. Firth, P. M. Bell, H. M. Marsh, I. Hansen, and R. A. Rizza* 1525

Bacterial lipoteichoic acid sensitizes host cells for destruction by autologous complement. *D. S. Hummell and J. A. Winkelstein* 1533

Rheumatoid arthritis synovial membrane contains a 62,000-molecular-weight protein that shares an antigenic epitope with the Epstein-Barr virus–encoded associated nuclear antigen. *R. Fox, R. Sportsman, G. Rhodes, J. Luka, G. Pearson, and J. Vaughan* 1539

Cultured fibroblast monolayers secrete a protein that alters the cellular binding of somatomedin-C/insulinlike growth factor I. *D. R. Clemmons, R. G. Elgin, V. K. M. Han, S. J. Casella, A. J. D'Ercole, and J. J. Van Wyk* 1548

Specific binding of antigen onto human T lymphocytes. *A. Durandy, A. Fischer, D. Charron, and C. Griscelli* 1557

High molecular weight kininogen is an inhibitor of platelet calpain. *A. H. Schmaier, H. Bradford, L. D. Silver, A. Farber, C. F. Scott, D. Schutsky, and R. W. Colman* 1565

Effects of calcium on vasopressin-mediated cyclic adenosine monophosphate formation in cultured rat inner medullary collecting tubule cells. Evidence for the role of intracellular calcium. *I. Teitelbaum and T. Berl* 1574

Gut injury in mouse graft-versus-host reaction. Study of its occurrence and mechanisms. *D. Guy-Grand and P. Vassalli* 1584

Mechanisms of lymphocyte adhesion to human vascular endothelial cells in culture. T lymphocyte adhesion to endothelial cells through endothelial HLA-DR antigens induced by gamma interferon. *J. Masuyama, N. Minato, and S. Kano* 1596

Assay of methylmalonic acid in the serum of patients with cobalamin deficiency using capillary gas chromatography–mass spectrometry. *S. P. Stabler, P. D. Marcell, E. R. Podell, R. H. Allen, and J. Lindenbaum* 1606

Altered growth, differentiation, and responsiveness to epidermal growth factor of human embryonic mesenchymal cells of palate by persistent rubella virus infection. *T. Yoneda, M. Urade, M. Sakuda, and T. Miyazaki* 1613

1,25 Dihydroxyvitamin D increases hepatocyte cytosolic calcium levels. A potential regulator of vitamin D–25-hydroxylase. *D. T. Baran and M. L. Milne* 1622

Human monoclonal autoantibodies that react with both pancreatic islets and thyroid. *C. Garzelli, F. E. Taub, M. C. Jenkins, D. W. Drell, F. Ginsberg-Fellner, and A. L. Notkins* 1627

Regulation of interferon receptor expression in human blood lymphocytes in vitro and during interferon therapy. *A. S. Lau, G. E. Hannigan, M. H. Freedman, and B. R. G. Williams* 1632

Load dependence of proximal tubular fluid and bicarbonate reabsorption in the remnant kidney of the Munich–Wistar rat. *D. A. Maddox, J. F. Horn, F. C. Famiano, and F. J. Gennari* 1639

Regulation of net bicarbonate transport in rabbit cortical collecting tubule by peritubular pH, carbon dioxide tension, and bicarbonate concentration. *M. D. Breyer, J. P. Kokko, and H. R. Jacobson* 1650

Long-term nocturnal calcium infusions can cure rickets and promote normal mineralization in hereditary resistance to 1,25-dihydroxyvitamin D. *S. Balsan, M. Garabédian, M. Larchet, A.-M. Gorski, G. Cournot, C. Tau, A. Bourdeau, C. Silve, and C. Ricour* 1661

Diminished agonist-stimulated inositol trisphosphate generation blocks stimulus–secretion coupling in mouse pancreatic acini during diet-induced experimental pancreatitis. *R. E. Powers, A. K. Saluja, M. J. Houlihan, and M. L. Steer* 1668

12-*o*-Tetradecanoyl-phorbol-13-acetate–differentiated U937 cells express a macrophage-like profile of neutral proteinases. High levels of secreted collagenase and collagenase inhibitor accompany low levels of intracellular elastase and cathepsin G. *H. G. Welgus, N. L. Connolly, and R. M. Senior* 1675

Intracellular pH regulation in rabbit renal medullary collecting duct cells. Role of chloride–bicarbonate exchange. *M. L. Zeidel, P. Silva, and J. L. Seifter* 1682

Pyrophosphohydrolase activity and inorganic pyrophosphate content of cultured human skin fibroblasts. Elevated levels in some patients with calcium pyrophosphate dihydrate deposition disease. *L. M. Ryan, R. L. Wortmann, B. Karas, M. P. Lynch, and D. J. McCarty* 1689

Effects of thyroid hormone on cardiac size and myosin content of the heterotopically transplanted rat heart. *I. Klein and C. Hong* 1694

Diagnostic radioimmunoassay for familial amyloidotic polyneuropathy before clinical onset. *M. Nakazato, T. Kurihara, S. Matsukura, K. Kangawa, and H. Matsuo* 1699

Decreased hypothalamic growth hormone–releasing hormone content and pituitary responsiveness in hypothyroidism. *H. Katakami, T. R. Downs, and L. A. Frohman* 1704

Rapid Publications

Infection of monocyte/macrophages by human T lymphotropic virus type III. *D. D. Ho, T. R. Rota, and M. S. Hirsch* 1712

Studies of the human liver insulin receptor in noninsulin-dependent diabetes mellitus. *P. Arner, K. Einarsson, S. Ewerth, and J. Livingston* 1716

May Author Index 1719

Contents

The Journal of Clinical Investigation
June 1986, Volume 77, Number 6

Perspectives

Recombinant DNA techniques in the diagnosis of inherited disorders. *J. F. Gusella* 1723

Regular Articles

Nicotine, cotinine, and anabasine inhibit aromatase in human trophoblast in vitro. *R. L. Barbieri, J. Gochberg, and K. J. Ryan* 1727

Multiple biological activities of human recombinant interleukin 1. *C. A. Dinarello, J. G. Cannon, J. W. Mier, H. A. Bernheim, G. LoPreste, D. L. Lynn, R. N. Love, A. C. Webb, P. E. Auron, R. C. Reuben, A. Rich, S. M. Wolff, and S. D. Putney* 1734

Expression of the human c-*fms* proto-oncogene product (colony-stimulating factor-1 receptor) on peripheral blood mononuclear cells and choriocarcinoma cell lines. *C. W. Rettenmier, R. Sacca, W. L. Furman, M. F. Roussel, J. T. Holt, A. W. Nienhuis, E. R. Stanley, and C. J. Sherr* 1740

Insulin. Its role in the thermic effect of glucose. *L. Christin, C.-A. Nacht, O. Vernet, E. Ravussin, E. Jéquier, and K. J. Acheson* 1747

Anti-F(ab')$_2$ antibodies in thrombocytopenic patients at risk for acquired immunodeficiency syndrome. *J.-R. Yu, E. T. Lennette, and S. Karpatkin* 1756

Multiple immunoreactive forms of osteocalcin in uremic serum. *C. M. Gundberg and R. S. Weinstein* 1762

Acute metabolic effects and half-lives of intravenously administered insulinlike growth factors I and II in normal and hypophysectomized rats. *J. Zapf, C. Hauri, M. Waldvogel, and E. R. Froesch* 1768

Pro-opiomelanocortin messenger ribonucleic acid and posttranslational processing of beta endorphin in spleen macrophages. *S. J. Lolait, J. A. Clements, A. J. Markwick, C. Cheng, M. McNally, A. I. Smith, and J. W. Funder* 1776

Effects of pulmonary edema on regional blood volume and red blood cell transit time. Comparison of high pressure and oleic acid–induced edema. *J. Y. Tsang, J. S. G. Montaner, and J. C. Hogg* 1780

Alveolar epithelial damage. A critical difference between high pressure and oleic acid–induced low pressure pulmonary edema. *J. S. G. Montaner, J. Tsang, K. G. Evans, J. B. M. Mullen, A. R. Burns, D. C. Walker, B. Wiggs, and J. C. Hogg* 1786

Defective suppression by insulin of leucine-carbon appearance and oxidation in type 1, insulin-dependent diabetes mellitus. Evidence for insulin resistance involving glucose and amino acid metabolism. *P. Tessari, R. Nosadini, R. Trevisan, S. V. De Kreutzenberg, S. Inchiostro, E. Duner, G. Biolo, M. C. Marescotti, A. Tiengo, and G. Crepaldi* 1797

Treatment of verapamil toxicity in intact dogs. *R. Gay, S. Algeo, R. Lee, M. Olajos, E. Morkin, and S. Goldman* 1805

Effects of anti-C5a antibodies on the adult respiratory distress syndrome in septic primates. *J. H. Stevens, P. O'Hanley, J. M. Shapiro, F. G. Mihm, P. S. Satoh, J. A. Collins, and T. A. Raffin* 1812

Identification and characterization of specific binding proteins for growth hormone in normal human sera. *A. C. Herington, S. Ymer, and J. Stevenson* 1817

Cross-reactivity of human and murine anti-DNA antibodies with heparan sulfate. The major glycosaminoglycan in glomerular basement membranes. *P. Faaber, T. P. M. Rijke, L. B. A. van de Putte, P. J. A. Capel, and J. H. M. Berden* 1824

Fibronectin mediates adherence of rat alveolar type II epithelial cells via the fibroblastic cell-attachment domain. *R. A. F. Clark, R. J. Mason, J. M. Folkvord, and J. A. McDonald* 1831

Posttranslational processing of secretory component in the rat jejunum by a brush border metalloprotease. *D. J. Ahnen, J. R. Singleton, T. C. Hoops, and T. M. Kloppel* 1841

Pituitary self-priming actions of gonadotropin-releasing hormone. Kinetics of estradiol's potentiating effects on gonadotropin-releasing hormone–facilitated luteinizing hormone and follicle-stimulating hormone release in healthy postmenopausal women. *J. D. Veldhuis, W. S. Evans, A. D. Rogol, L. Kolp, M. O. Thorner, and P. Stumpf* 1849

Interleukin 1 stimulates fibroblasts to produce granulocyte–macrophage colony-stimulating activity and prostaglandin E_2. *J. R. Zucali, C. A. Dinarello, D. J. Oblon, M. A. Gross, L. Anderson, and R. S. Weiner* . . . 1857

Abnormal metabolism of shellfish sterols in a patient with sitosterolemia and xanthomatosis. *R. E. Gregg, W. E. Connor, D. S. Lin, and H. B. Brewer, Jr.* 1864

Studies of human megakaryocytopoiesis using an anti-megakaryocyte colony-stimulating factor antiserum. *H. H. Yang, E. Bruno, and R. Hoffman* 1873

McArdle's disease heterozygotes. Metabolic adaptation assessed using ^{31}P-nuclear magnetic resonance. *R. T. Bogusky, R. G. Taylor, L. J. Anderson, K. L. Angelos, J. S. Lieberman, and D. A. Walsh* 1881

Evidence that serum calcium oxalate supersaturation is a consequence of oxalate retention in patients with chronic renal failure. *E. M. Worcester, Y. Nakagawa, D. A. Bushinsky, and F. L. Coe* 1888

Effects of DNA and prostaglandin synthesis inhibitors on the stimulation of bone resorption by epidermal growth factor in fetal rat long-bone cultures. *J. A. Lorenzo, J. Quinton, S. Sousa, and L. G. Raisz* 1897

Human fetal and adult chondrocytes. Effect of insulinlike growth factors I and II, insulin, and growth hormone on clonal growth. *U. Vetter, J. Zapf, W. Heit, G. Helbing, E. Heinze, E. R. Froesch, and W. M. Teller* 1903

Activation of endogenous Factor V by a homocysteine-induced vascular endothelial cell activator. *G. M. Rodgers and W. H. Kane* 1909

Metabolic reduction of chromium by alveolar macrophages and its relationships to cigarette smoke. *F. L. Petrilli, G. A. Rossi, A. Camoirano, M. Romano, D. Serra, C. Bennicelli, A. De Flora, and S. De Flora* 1917

Prevention of diabetic glomerulopathy by pharmacological amelioration of glomerular capillary hypertension. *R. Zatz, B. R. Dunn, T. W. Meyer, S. Anderson, H. G. Rennke, and B. M. Brenner* 1925

Circulating immune complexes and immunoglobulin A rheumatoid factor in patients with mesangial immunoglobulin A nephropathies. *C. Czerkinsky, W. J. Koopman, S. Jackson, J. E. Collins, S. S. Crago, R. E. Schrohenloher, B. A. Julian, J. H. Galla, and J. Mestecky* 1931

Oxidative regulation of neutrophil elastase–alpha-1-proteinase inhibitor interactions. *P. J. Ossanna, S. T. Test, N. R. Matheson, S. Regiani, and S. J. Weiss* 1939

Expression of the alpha-1-antitrypsin gene in mononuclear phagocytes of normal and alpha-1-antitrypsin–deficient individuals. *J.-F. Mornex, A. Chytil-Weir, Y. Martinet, M. Courtney, J.-P. LeCocq, and R. G. Crystal* 1952

Spontaneous release of interleukin 2 by lung T lymphocytes in active pulmonary sarcoidosis is primarily from the Leu3+DR+ T cell subset. *C. Saltini, J. R. Spurzem, J. J. Lee, P. Pinkston, and R. G. Crystal* 1962

Uptake of low density lipoproteins by rat tissues. Special emphasis on the luteinized ovary. *E. Reaven, Y.-D. I. Chen, M. Spicher, S.-F. Hwang, C. E. Mondon, and S. Azhar* 1971

Differential recognition of a protective filarial antigen by antibodies from humans with Bancroftian filariasis. *J. W. Kazura, H. Cicirello, and K. Forsyth* 1985

Therapeutic advantage of converting enzyme inhibitors in arresting progressive renal disease associated with systemic hypertension in the rat. *S. Anderson, H. G. Rennke, and B. M. Brenner* 1993

Plasminogen interacts with human platelets through two distinct mechanisms. *L. A. Miles, M. H. Ginsberg, J. G. White, and E. F. Plow* 2001

Comparison of intravenous gamma globulin and a monoclonal anti-Fc receptor antibody as inhibitors of immune clearance in vivo in mice. *R. J. Kurlander and J. Hall* 2010

Association of class II human histocompatibility leukocyte antigens with rheumatic fever. *E. M. Ayoub, D. J. Barrett, N. K. Maclaren, and J. P. Krischer* 2019

Interleukin 1 stimulates platelet-activating factor production in cultured human endothelial cells. *F. Bussolino, F. Breviario, C. Tetta, M. Aglietta, A. Mantovani, and E. Dejana* 2027

Effects of aging on glucose-mediated glucose disposal and glucose transport. *R. I. Fink, P. Wallace, and J. M. Olefsky* 2034

Feedback regulation of pancreatic enzyme secretion. Suppression of cholecystokinin release by trypsin. *C. Owyang, D. S. Louie, and D. Tatum* 2042

Rapid Publication

An explanation for minor multimer species in endothelial cell–synthesized von Willebrand factor. *D. C. Lynch, T. S. Zimmerman, E. H. Ling, and P. J. Browning.* 2048
